

SMALL THINGS CHANGE YOUR LIFE

The smallest four-wheeled vehicle
100% electric in the world.

01.
Park it where you want.

Finding a parking spot is no longer a challenge: **Birò is very small and you can park anywhere**, including parking spots designated for scooters.

03.
Charge the battery anywhere.

Our batteries **can be charged with a traditional 220V domestic outlet**. With the Re-Move system, you can remove the battery like a trolley and charge it anywhere!

05.
Stay away from stress.

All those hours lost in traffic... forget them! **With Birò you move easily through the city center** and you can even drive in limited traffic zones*.

02.
You are always protected.

Birò is small, but sturdy. Its **security frame** made from thick tubular steel protects you and the passenger.

04.
You choose whether to buy or rent it.

The possibilities for driving a Birò are endless: **buy**, even with financing or **short, medium and long-term rental**.

06.
Saving is easy.

With Birò **you can travel 100 km for € 1** and maintenance costs are reduced compared to the car to a minimum.

* Check the regulations of your city/nation.

FOR EVERYONE A BIRÒ

Drivable with scooter license *.

len: 1.740 mm wd: 1.030 mm

len: 1.835 mm wd: 1.030 mm

RECHARGE THE BATTERY

Choose the battery that works for you.

Lithium Maxi Battery

Range: up to 100 km
Charging time: approx. 5 h
Absorption: 1.000 W

Lithium Re-Move Battery

Range: up to 55 km
Charging time: approx. 3 h
Absorption: 1.000 W

CHOOSE THE SPEED
